MONDAY EVENING, AUGUST 6.

EMIGRATION TO AFRICA.-The United States and Congo National Emigration Steamship Company does not appear to be making much progress in its efforts to in duce Congress to assist such colored peop'e as desire to leave this country and go to Africa. Several members of Congress have been interviewed on the subject, but they do not seen to take a very deep interest in the matter, for the reason, as they claim, that the colored people now in the United that the colored people now in the United States prefer to remain here rather than emigrate to Africa or any other foreign country. A member of the Senate, who was supposed to be familiar with the operations of this company, when questioned on the subject, said that, according to his understanding of the situation, the steamship company has its existence simply on paper, and it represes that the government shall and it proposes that the government shall provide the means for the construction of one or more steamships, to be used exclusively for transporting to the Congo country such members of the colored race as wish to go under certain conditions. An atterney go, under certain conditions. An attorney for the company has visited the Capito! frequently during the past few years, but up to date he has failed to make the members of the appropriations committee appreciate the magnitude or the philanthropic spirit of the scheme. Senator Sawyer a few days ago pre-sented an amendment to the sundry civil bill providing \$100 for each colored person who desires to go to the Congo. It is under-stood that he simply introduced his amend ment by request, a practice frequently in-dulged in when a Congressman does not wish to be held personally responsible for a proposition.

The capital stock of this company is \$625,000, divided into 625,000 shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.,) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value Within the last few days bona fide sales have been made AT PAR.

There is no better stock on the market for a permanent investment. For full information in regard to this Mine apply to the
